**TERTIARY OIL RECOVERY PROJECT**

TORP is sponsored by the State of Kansas to acquaint oil producers in the state with the technical and economic potential of enhanced recovery methods for Kansas fields. Project objectives:

- Identify and evaluate the potential for the application of enhanced recovery processes in Kansas reservoirs.
- Research and development of processes that are applicable to Kansas reservoirs.
- Investigate the application of reservoir engineering and geology for characterization of Kansas reservoirs.
- Dissemination of technical information to the Kansas oil industry.
- Conduct a viable program of technology transfer for the industry.
- Develop and provide technical assistance on field tests and demonstration projects.
- Educate students and operators in enhanced recovery processes and efficient reservoir and operations management.
